	★Comment No. 24: AN IMPORTANT NOTE: As with a cash-flow statement (no longer required in the federal sector), the Statement of Financing requires a level of detail beyond that of the SGL accounts. In some instances, such as capitalized asset acquisition and disposition, agencies must analyze transactions to obtain required data. Additional information regarding preparation of this statement is available as illustrative guidance published by the FASAB in a special edition newsletter, dated March 1, 1999. This guidance is available at the FASAB website. (http://www.financenet.gov/financenet/fed/fasab/news.htm).
